More Glitter News....

Thank you everyone for the fabulous comments about floral bouquet board, apparently you just loved it especially with the Dufex sheets to make it all the more glitzy.... When we promoted the board on Create Craft the phone lines went crazy and despite them having huge stocks they sold out of the packs of Dufex embossable sheets almost before we got on air, it really pleases Babs and myself to know that you really like our products and that's why we are taking time out to thank each and everyone of you who do buy our goods for your continued support, we love glitterbug family.

So just to keep you all in the picture we thought we would you give a little insight of things to come.... Over the next few months we have designed three more new boards And we think you are going to just adore them each time we look at them we can't wait to get them out there for you.... And they really will help to make that most professional touch to your greetings card's. Also there will be a CD which is so pretty and a totally different way and shape of making a beautiful card....

Once again especially for you.... We have teamed up with another major company to bring you some of the most elegant card making kits, they really are to die for when we saw what our ideas had turned into we were over the moon, you will be able to see one of these new ideas on 29th June on Create and craft but get there early because when you see the kit you will want it....

Sorry..... this has turned out to be a big tease hasn't it but trust us you will like what you see, we hope to see some of you again at the Exhibitions our next one is Newbury 5th and 6th July a show we love.

All our love

Kathy and Babs
